

Given:

Opening Capital = ₹5,50,000

Total Assets = ₹10,75,000

Liabilities = ₹2,92,500

Capital = Total Assets – Liabilities

Capital = ₹10,75,000 - ₹2,92,500

Closing Capital = ₹7,82,500

Additional Capital = Closing Capital - Opening Capital

₹7,82,500 = ₹5,50,000 + Additional Capital

Additional Capital = ₹7,82,500 - ₹5,50,000

Additional Capital = ₹2,32,500
